Fatal Accident on the C. C. & C. Rail road-One Man Killed and a Number Wounded.

The first fatal accident which has happened on the Cleveland and Columbus railroad for several years, occurred to the morning train going from this city to Cleveland yesterday. While the train was running at the ordinary speed between Gilead and Cardington stations, a defective rail broke, running one of the passenger cars off the track,

Cleveland, was instantly killed by the accident. It is supposed that he was looking out of a window at the time, and when the car rolled over his head was crushed. Mr. Dewitt was a leading and active member of the State Board of Agriculture, and had been in this city on business connected with the Board. He has long been prominently identified with the agriculture of the State, and was widely known and respected.

Ten or twelve other passengers were injured by the accident, some seriously, others slightly. The railroad officers here have not been furnished with the names, and we are therefore unable to publish them. The wounded were taken in charge by the conductor of the train and every possible means provided for their comfort.

A DESPERATE SUBSTITUTE.—On Conductor Gale's train coming from Cleveland vesterday afternoon on the Cleveland and Columbus railroad, were a number of substitutes for conscripted men, who were on their way to Tod Barracks. One of them was observed sitting with his feet sticking out of the window. Presently he was seen to slide through the window, feet foremost, and drop to the ground, while the train was going at the rate of forty-five miles an hour. Expecting to find the fellow mashed to a jelly the train was backed up to the spot, but there was nothing to be seen of the substitute. He had scampered off into the woods leaving nothing but his tracks and the impression of his body where he fell to show that he had touched bottom. One of the passengers seeing the man slide out of the window, jumped out of his seat and ran across the car to see what became of the aubstitute, but in his haste he forgot to raise the window and plunged his head through the glass, smashing his hat and cutting his face severely with the broken glass.

REVENUE TAXES-HEAVY TAX PAYERS .-The total receipts of internal revenue collected by the Collector of this district from the 20th day of September to the 20th day of Company F.—Wounded, Franklin Flood, \$154,000 was paid as duty on the single article of whisky, in the month of April.-One dealer, Mr. Moneypenny, of Lockbourne, pays on an average \$2,000 per day, and another, Mr. Amor Reese, of Franklin county, \$1,000 per day as duty on whisky,

The receipts of the district average about \$6,000 per day. From this it will be seen that two citizens of Franklin county, Messrs. Moneypenny and Reese, pay about onehalf of the revenue collected in this district, which consists of the counties of Franklin

PORTRAITS OF POPULAR GENERALS-Everybody is anxious to see a life-like portrait of our distinguished men, and it is rarely that any body has the opportunity. Some of the portraits of Gen. Grant have been the most contemptible caricatures imaginable, and in this respect Gen. McClellan has been a sufferer to an equal extent. Mr. A. A. Adams, of with correct and life-like portraits of both those distingushed officers, either one of which will be an ornament to the parlor or the office. Mr. Adams has the exclusive right to sell these portraits, and those who desire to have one or both of them should purchase of him alone. They are the best portraits of either Grant or McClellan that have yet been published.

A QUIET SUNDAY .- Yesterday was a quiet day in the city, the heat keeping most people in their houses. The gardens in the suburbs of the town were still well patronized, but there was no disorder at any of them. Two belligerent individuals endeavored to get up a fight on west Friend street, and disturbed the neighborhood by their blustering demonstrations; but the disturbance was ended by the capture of the parties by the police and their removal to the calaboose.

McColm, Miles & McDonalds .- This firm is doing a splendid business. As Wholesale and Retail Grocers, their establishment is one of the finest in the city .-And what is of infinite importance to them, they appreciate the value of advertising. They and their gentlemanly clerks are busy from early in the morning until late at night, waiting upon customers and taking orders. Read their advertisement which will be found elsewhere in this paper, and then give them a call.

RELIGIOUS INTELLIGENCE.-Rev. W. C. Roberts, of the First Presbyterian Church of this city, having gone to the General Assembly of the Old School Presbyterian Church at Newark, New Jersey, as a Commissioner, the Rev. Mr. Maynard supplied his pulpit, and preached to a large and attentive congregation in the First Church. Rev. Mr. T. R. Smith, of New York city, who is attending the New School General Assembly at Dayton, preached to a much larger congregation in the Second Presbyterian Church than generally go to hear the Pastor. The other Churches of the city were all well filled yesterday, with attentive and appreciative hearers.

THE CONSCRIPTION.—The examination of drafted men for this District has been going on from May 7 to May 20, and the following is the result:

Number of drafted men held... Substitutes accepted... Paid Commutation Exempted for disability....

GRAND BALL.-A complimentary Ball will be given at Ambos Hall to Christopher Ridinger, on Tuesday, May 24th. Mr. Ridinger is a man in poor circumstances and was unfortunate enough to draw one of Uncle Sam's prizes on the day of draftraising money to get his release.

THE NEW CITY DIRECTORY .- Mr. C. A. Poland informs us that he is about ready to put his New City Directory to press. His canvass of the city has been a thorough one; but there may be some persons who have been overlooked, and as he desires to make his book as near perfect as possible, he requests all who are not positive that he has their names, to send them to him through the Post Office, or leave them with him-giving also occupation and residence. Mr. Poland will be found at the office of The Columbus Express.

THE PRIVATE SOLDIER .- Somebody says, and we indorse the sentiment, that if there is a being in the world who is deserving of private affection and public gratitude, it is the soldier who marches as a private in the ranks of the army, to fight for his country, offers his blood and life as a sacrifice for the maintenance of the Union and the Constitution. And yet how seldom it is that they get the honor and reward their services entitle them to. It is the private who carries the gun; it is the private who marches on foot through mud, frost and snow; it is the private who erects bridges over swift streams, and rears the lofty fortifications: and it is the private who, with the bayonet set, charges on the deadly rifle pits and against the squared columns of the enemy; and yet how seldom it is that he receives the honors and rewards of his noble con-

The Fighting on Thursday --- The Enemy Driven Back in Confu-NEW YORK, May 21 .- The Times has the

following specials: HEADQUARTERS ARMY OF THE POTOMAC, May 20, 8 A. M.—My dispatch of 10 P. M. esterday informed you of the attack made last evening upon the right wing of our line, and the handsome manner in which the rebels were driven back. It was made by the whole of Ewell's corps. The enemy left the vicinity of Spottsylvania Court House about one in the afternoon, made a detour to the left and crossed the Ny, and about five o'clock struck the Fredericksburg road in the rear of our right, their flank breaking out within three quar-ters of a mile of the headquarters of Meade and Grant. The only troops we had on the ground at the time were a couple of reginents of Tyler's division, heavy artillery, never before under fire.

Tyler soon brought up the remainder of his force, and met the rebel attack, driving the enemy back into the woods. Here the rebels had formed their line of battle. Ty-ler felt rather apprehensive at the work be-fore him, considering the rawness of his When once fairly under fire, howver, they showed the utmost bravery. Their oss is quite heavy, more severe than repored by me in my dispatch last night, and will probably reach 1,000 killed and wounded. The rebels gave way in confusion, scattering through the woods. The honor of the victory rests exclusively with Tyler's heavy artillery division, though Birney's livision, 2d corps, and Crawford's 5th, afterwards gave support and formed a line, en-abling Tyler to withdraw after driving the several miles, and clearing the val-

ey of the Ny.

The confusion of the rebels appears to have been very great, the greater portion of Rhode's division scattering in the woods; 350 of them were picked up in the woods during the night, and have just been brought into headquarters. The division of raw troops feel immensely tickled at their uccess, although their loss has been heavy they felt that the diminution in number was ully made up by the increase in morale.

HEADQUARTERS, May 18, 9 P. M .- Communication is open as usual to-night, and supplies are still pouring in for us. Guiana Station was captured last evening by Talbot's cavalry, and is now in our possession. From this position the rebels have been bringing supplies. Bowling Green has been their raliroad station since. It is now elieved they are bringing supplies across rom the Virginia Central railroad 20 miles. NEW YORK, May, 21.—The Herald has the following:

Friday, May 20th, 7 A. M .- The losses in the fight last evening are estimated at be-tween 500 and 600, and confined entirely to a few regiments. The rebel loss is un-known in killed and wounded, but must be very heavy in proportion to the number en-gaged. Their disabled lay quite thick at some parts of the line. Squads of prisoners were coming in till midnight, and this morning at daylight two hundred more passed in front of my tents. From 500 to 600 have already been brought in. No firing of consequence during the night and none at all this morning. The rebels with-drew from their position in our rear under

cover of the night. Our old flank movement to the left was esumed again this morning, and no battle s expected before to-morrow or next day. Lee is believed to be uneasy in his intrenched position near Spottsylvania, and may be taking up a new one further southeast at the present moment.

New York, May 21 .- The Times' special from headquarters says the losses in the 5th corps since the movement began are as follows: killed 1,240; wounded 11,570; missing 1.120-total 13.930. There are less missing than in any other corps.

Stragglers are estimated at about 12,000

in the whole army. Washington Gossip.

NEW YORK, May 21.—The Post's Washington special, dated the 21st, says: Private dvices from the Army of the Potomac confirm the previous statements that Lee's army is smaller than was estimated, having een greatly reduced by the recent battles The appointment of Gen. Hunter to the Department of West Virginia gives much atisfaction here.

It is now expected that the new tariff oill will be reported to the House by the Ways and Means committee on Monday. A proposition for the final adjournment of Congress will soon be made, fixing the day on the 25th of June.

New York, May 21.—The telegraph op-erators of the Independent line, who were sent to Fort Lafayette on Wednesday night, were this morning taken from the fort to General Dix's headquarters and examined, when affidavits were made by them to the effect that they knew nothing of the forged proclamation, and they were immediately lischarged.

provision and seven fine iron works and machinery. We have secured two good bridges and an excellent ford across the Etowah. The cars are now arriving at Kingston with stores, and two days would be given to replenish and fit up.

A dispatch just received from Gen. Banks, dated at Alexandria, May 8th, states that the dam will be completed to-morrow, May 9th, and the gunboats relieved. He would then move immediately for the Mississippi. Gen. Canby was at the mouth of Red river on May 4th, collecting forces to assist Banks, if necessary.

Dispatches from Gen. Butler, dated ten o'clock last night, report that he had been fighting all day. The enemy was endeavoring to close in on our lines. We have captured the rebel Gen. Walker, of the Texas troops.

From the Front.

Washington, May 21—A dispatch from the headquarters of the Army of the Poto-mac, dated to-day, says nothing of import-ance occurred yesterday. The wounded from the fight of Thursday afternoon were sent to Fredericksburg during the day. The loss was much heavier than at first supposed. about one thousand one hundred, over one hundred of whom were sent to Washington. A large number of wounded rebels were brought into our hospitals and cared

for, some of whom afterwards died. The rebel loss is estimated at twelve hundred and fifty in killed and wounded, besides about four hundred and fifty prisoners, who were sent to Washington last night. Sixty citizens of Fredericksburg have been arrested and will be sent to Washington to-day to be held as hostages for the sixty of our wounded men taken by them to Richmond. Rebel prisoners continue to be brought in. About twentyfive have been captured since last evening. They give gloomy accounts of the rebel commissariat, and say that Gen. Lee feels certain of final victory.

Activity of the Rebels in Butler's

Department. NEW YORK, May 19 .- The Herald corresondence from Butler's army, dated May 18, says two heavy columns of the enemy were liscovered passing down the Pike towards Petersburg with large trains. Gen. Foster was sent out with a large force to destroy, if possible, the trains, but the enemy were met in such strong force that the purpose was abandoned. The enemy are actively engaged in repairing the railroad, and have concentrated a force of from 20,000 to 25,000, with which they not only hope to keep open Lee's communication, but crush Butler.

Ewell's corps fol-lowed Longstreet last night.

The indications are that the rebel army has fallen back beyond the North Anna. Hoke's brigade has joined Lee. The move-ment of Gen. Grant has thus far been accomplished without any severe engagement or serious interruption. We now occupy Gueney's station, Milford station and south of the Mattapony on that line. A' dispatch received this morning from

Gen. Canby, dated May 14th, at the mouth of the Red river, says we have rumors to-day from rebel sources, that all the gunboats, except two, succeeded in getting over the falls at Alexandria on the day mentioned n Gen. Bank's dispatch.

Dispatches to the Navy Departs ment.

Washington, May 22.—Sixty hostages, who were arrested in Fredericksburg, arrived in this city this morning and were committed to the old capital prison. The following dispatch has been received it the Navy Department:

Gideon Welles, Secretary of the Navy: I have just received a letter from Lieut. Commander Breeze, dated at the mouth of the Black river, May 15th. He writes as follows: This morning a bearer of dis-patches from Gen. Banks was received at Fort De Russey, who says when he left one gunboat was coming over the falls, and it vas currently believed that all would get over. He knew nothing more. I have in formation from a reliable source that the lam has been completed, and we may soon expect to hear that all the ironelads are

The Navy Department has also received communication from the U.S. bark Ethan Allen, blockading off Murrell's Inlet, S. C., reporting the destruction of valuable salt works; information being given them by contrabands of the location of the works, which were at a place called Cane Pitch. twelve miles from the Inlet. Upon reaching the works, an armed crew was sent ashore who succeeded in destroying them and firing the buildings. Extensive arrangements had been made for extending

the works to double their size.

A communication has also been received rom the Pawnees, which says that an expedition was sent up St. John's river, Flor-ida, under command of General Birney, and had been very successful. They did not, however, meet the enemy, who is sup-posed to have crossed at Fort Yates to the

ast side of the St. John.
One thousand head of cattle and some orses and other valuable property were captured. The expedition had not returned to Jacksonville at last but was expected.

Arrival of the Steamer America. NEW YORK, May 22.-The steamer Ameria, from Southampton on the 11th, arrived this morning. Our Army Moving Into New Posi-

tion. NEW YORK, May 22.—A Fortress Monroe dispatch of the 20th to the Herald, states that squads of rebel prisoners continue to arrive in a dilapidated condition, who express hopes that the campaign will be concluded soon to prevent their exchange. Sheridan's force left Haxall's Landing and will soon be heard from.

The Herald's correspondent, near Spottsylvania, May 21st, 8 A. M., says our troops were moving all night to a new position. This morning the general headquarters are broken up and nearly the whole army is in Precisely where our next halting

will be, time alone can determine. The general expectation is we shall have hard fighting soon.

Another correspondent says of the fight on Thursday night, in which the raw heavy artillery acted so handsomely, says: Our loss was but half the number originally stated. A rebel deserter says their loss was double ours, and represents the enemy as very much chagrined at their failure to turn our right. The Ninth corps now occupies a position in advance of the two lines of works held by the enemy, a few days since, so that our progress, it slow, is at least sure.

From the Blockading Squadron. New York, May 22 .- The supply steamer Newbern, from the blockading squadron, has arrived. She has a number of blockade

running prisoners.
The rebel ironclad North Carolina, which recently came a short distance over the Wilmington bar, leaked so badly she was compelled to run ashore. When the tide fell she broke in t vain amidships. Her consort the Raleigh is nearly completed.

RAPIDITY OF CURE. Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature."

This is our reply: In health, the body, like a well balanced scale, is in a state of Equilibrium. But when, from any cause, down goes one side of the scales, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.
